

Reducing or Waiving Class A's Initial Sales Charge

The following describes the different ways investors can reduce or avoid paying Class A's initial sales charge.

Increase the Amount of Your Investment. You can reduce Class A's initial sales charge by increasing the amount of your investment. The table on page 5 shows how the sales charge decreases as the amount of your investment increases.

To satisfy the purchase amounts listed in the tables on page 5, you can:

- Use your **Rights of Accumulation**, which allow you or an eligible group of related investors to combine (1) the current value of JennisonDryden or Strategic Partners mutual fund shares you or the group already own, (2) the value of money market shares you or an eligible group of related investors have received for shares of other JennisonDryden or Strategic Partners mutual funds in an exchange transaction, and (3) the value of the shares you or an eligible group of related investors are purchasing;
- Sign a **Letter of Intent**, stating in writing that you or an eligible group of related investors will purchase a certain amount of shares in the Fund and other JennisonDryden or Strategic Partners mutual funds within 13 months; or
- Use your **Combined Purchase and Cumulative Purchase Privilege**, which allows you and an eligible group of related investors to combine the value of Class A shares of this Fund with the value of other JennisonDryden or Strategic Partners mutual funds that you or the group are purchasing at the same time.

An "eligible group of related investors" includes any combination of the following:

- All accounts held in your name (alone or with other account holders) and taxpayer identification number (TIN);
- Accounts held in your spouse's name (alone or with other account holders) and TIN (see definition of spouse below);
- Accounts for your children or your spouse's children including children for whom you and/or your spouse are legal guardian (e.g., UGMAs and UTMAs);
- Accounts in the name and TINs of your parents;
- Trusts with you, your spouse, your children, your spouse's children and/or your parents as the beneficiaries;
- With limited exclusions, accounts with the same address (exclusions include, but are not limited to, addresses for brokerage firms and other intermediaries and Post Office boxes); and
- Accounts held in the name of a company controlled by you (a person, entity or group that holds 25% or more of the outstanding voting securities of a company will be deemed to control the company, and a partnership will be deemed to be controlled by each of its general partners), including employee benefit plans of the company where the accounts are held in the plan's TIN.

A "spouse" is defined as follows:

- The person to whom you are legally married. We also consider your spouse to include the following:
- An individual of the same gender with whom you have been joined in a civil union, or legal contract similar to marriage;

- A domestic partner, who is an individual (including one of the same gender) with whom you have shared a primary residence for at least six months, in a relationship as a couple where you, your domestic partner or both provide for the personal or financial welfare of the other without a fee, to whom you are not related by blood; or
- An individual with whom you have a common law marriage, which is a marriage in a state where such marriages are recognized between a man and a woman arising from the fact that the two live together and hold themselves out as being married.

The value of shares held by you or an eligible group of related investors will be determined as follows:

- for Class A and Class L shares, the value of existing shares is determined by the maximum offering price (Net Asset Value (NAV) plus maximum sales charge) as of the previous business day; and
- for Class B, C, F, M, X, Y and Z shares, the value of existing shares is determined by the NAV as of the previous business day.

Note: Not all share classes may be offered by your Fund. In addition, Class L, M and X shares are not offered to new purchasers and are available only through exchanges from the same share class of certain other JennisonDryden and Strategic Partners funds.

Note: Class Z shares cannot be aggregated with any other share class for purposes of reducing or waiving Class A's initial sales charge.

If your shares are held directly by the Transfer Agent, and you believe you qualify for a reduction or waiver of Class A's initial sales charge, you must notify the Transfer Agent at the time of the qualifying share purchase in order to receive the applicable reduction or waiver. If your shares are held through a broker or other financial intermediary, and you believe you qualify for a reduction or waiver of Class A's initial sales charge, you must notify your broker or intermediary at the time of the qualifying purchase in order to receive the applicable reduction or waiver. Shares held through a broker or other financial intermediary will not be systematically aggregated with shares held directly by the Transfer Agent for purposes of receiving a reduction or waiver of Class A's initial sales charge. The reduced or waived sales charge will be granted subject to confirmation of account holdings.

If your shares are held directly by the Transfer Agent, you must identify the eligible group of related investors. Although the Transfer Agent does not require any specific form of documentation in order to establish your eligibility to receive a waiver or reduction of Class A's initial sales charge, you may be required to provide appropriate documentation if the Transfer Agent is unable to establish your eligibility.

If your shares are held through a broker or other intermediary, the broker or intermediary is responsible for determining the specific documentation, if any, that you may need in order to establish your eligibility to receive a waiver or reduction of Class A's initial sales charge. Your broker or intermediary is also responsible for notifying the Transfer Agent if your share purchase qualifies for a reduction or waiver of Class A's initial sales charge.

Purchases of \$1 million or more. If you purchase \$1 million or more of Class A shares, you will not be subject to an initial sales charge, although a CDSC may apply, as previously noted.

Mutual Fund Programs. The initial sales charge will be waived for investors in certain programs sponsored by broker-dealers, investment advisers and financial planners who have agreements with the Distributor relating to:

- Mutual fund "wrap" or asset allocation programs; where the sponsor places fund trades, links its clients' accounts to a master account in the sponsor's name and charges its clients a management, consulting or other fee for its services, or
- Mutual fund "supermarket" programs; where the sponsor links its clients' accounts to a master account in the sponsor's name and the sponsor charges a fee for its services.

Broker-dealers, investment advisers or financial planners sponsoring these mutual fund programs may offer their clients more than one class of shares in the Fund in connection with different pricing options for their programs. Investors should consider carefully any separate transaction and other fees charged by these programs in connection with investing in each available share class before selecting a share class.

Group Retirement Plans. Group retirement plans, including 401(k) plans, Keogh plans, profit-sharing pension plans, money purchase pension plans, target benefit plans, defined benefit plans, Taft Hartley multiemployer pension plans, SEP IRA and SARSEP plans, SIMPLE IRA plans, 457 plans, 403(b) plans, non-qualified deferred compensation plans, and other defined contribution plans may purchase Class A shares without paying the initial sales charge. The availability of Class A shares at net asset value for group retirement plans will depend upon the policies of your financial intermediary and/or the recordkeeper for your plan. If Prudential Retirement Services is the record keeper for your group retirement plan, you may call Prudential at (800) 353-2847 with any questions. Otherwise, investors in group retirement plans should contact their financial intermediary with any questions regarding availability of Class A shares at net asset value.

Other Types of Investors. Certain other types of investors may purchase Class A shares without paying the initial sales charge, including:

- certain directors, officers, employees (including their spouse, children and parents) of Prudential and its affiliates, the JennisonDryden or Strategic Partners mutual funds, and the investment subadvisers of the JennisonDryden or Strategic Partners mutual funds;
- persons who have retired directly from active service with Prudential or one of its subsidiaries;
- certain real estate brokers, agents and employees of real estate brokerage companies affiliated with the Prudential Real Estate Affiliates;
- registered representatives and employees of broker-dealers that have entered into dealer agreements with the Distributor; and
- investors in Individual Retirement Accounts (IRAs), provided that: (a) the purchase is made either from a directed rollover to such IRA or with the proceeds of a tax-free rollover of assets from a Benefit Plan for which Prudential Retirement (the institutional Benefit Plan recordkeeping entity of Prudential) provides administrative or recordkeeping services, in each case provided that such purchase is made within 60 days of receipt of the Benefit Plan distribution, or recordkeeping for the Individual Retirement Account is performed by Prudential Retirement as part of its "Rollover IRA" program (regardless of whether or not the assets of the IRA consist of proceeds of a tax-free rollover of assets from a Benefit Plan described above).

To qualify for a waiver of the Class A sales charge at the time of purchase, you must notify the Transfer Agent or the Distributor must be notified by the broker facilitating the purchase that the transaction qualifies for a waiver of the Class A sales charge. The waiver will be granted subject to confirmation of your account holdings.
