This annual report must be preceded or accompanied by a prospectus of the Evergreen fund contained herein. The prospectus contains more complete information, including fees and expenses, and should be read carefully before investing or sending money.

The fund will file its complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-Q. The fund's Form N-Q will be available on the SEC's Web site at <http://www.sec.gov>. In addition, the fund's Form N-Q may be reviewed and copied at the SEC's Public Reference Room in Washington, D.C. Information on the operation of the Public Reference Room may be obtained by calling 800.SEC.0330.

A description of the fund's proxy voting policies and procedures, as well as information regarding how the fund voted proxies relating to portfolio securities during the most recent 12-month period ended June 30, is available by visiting our Web site at EvergreenInvestments.com or by visiting the SEC's Web site at <http://www.sec.gov>. The fund's proxy voting policies and procedures are also available without charge, upon request, by calling 800.343.2898.

LETTER TO SHAREHOLDERS

February 2009

Dear Shareholder:

We are pleased to provide the Annual Report for Evergreen VA Special Values Fund for the twelve-month period ended December 31, 2008 (the “period”).

After contracting in the fourth quarter of 2007, the U.S. economy made gains in the first half of 2008. These gains were largely due to strength in government spending and exports, powered higher by the weakening U.S. currency. At the same time, home prices continued to fall and job losses persisted. September 2008 marked a crucial event, when federal officials allowed for the collapse of Lehman Brothers, which history will likely judge as a colossal policy failure. The collateral damage from this event led to further collapse. Venerable financial institutions fell like dominos in the ensuing weeks as distrust prevailed and counter-party risk, whether real or imagined, escalated. Inter-bank lending ceased to exist, and the credit markets froze.

Consequently, officials at the Federal Reserve Board and U.S. Treasury increased their involvement, utilizing innovative measures to improve both liquidity and confidence. These efforts culminated with Congress’ approval of the \$700 billion Troubled Asset Relief Program (“TARP”). The program was initially intended to be used to purchase distressed mortgage-related securities, however, one month after TARP’s approval the Treasury decided against it. Not surprisingly, confidence at the consumer and investor levels was shaken further, and banks, despite the recapitalization efforts to revive their balance sheets, became both increasingly vigilant and militant relative to their lending policies. As a result, economic activity in the fourth quarter of 2008 was positioned to be among the weakest in history.

During this period of unprecedented events, portfolio managers of Evergreen’s Variable Annuity Funds continued to maintain strategies consistent with each fund’s goal and the asset class in which the fund invests. In addition to seeking ways to stave off losses that the prevailing markets presented, managers of equity-oriented portfolios tended to focus on long-term growth opportunities, while the professionals supervising fixed income portfolios sought total return and current income.

W. Douglas Munn
President and Chief
Executive Officer

In this challenging environment, we continue to emphasize fully diversified strategies for long-term investors in order to participate in market gains while limiting the potential for losses. Periods of economic weakness have previously been accompanied by increases in market volatility, allowing for active managers to typically outperform passive strategies. Therefore, we encourage investors to have appropriate equity exposure relative to capitalization, investment style and region for their diversified long-term portfolios.

Please visit us at **EvergreenInvestments.com** for more information about our funds and other investment products available to you. Thank you for your continued support of Evergreen Investments.

Sincerely,

A handwritten signature in black ink that reads "W. Douglas Munn". The signature is written in a cursive, flowing style.

W. Douglas Munn

President and Chief Executive Officer
Evergreen Funds

Notices to Shareholders:

- On December 31, 2008, Wachovia Corporation merged with and into Wells Fargo & Company (“Wells Fargo”). As a result of the merger, Evergreen Investment Management Company, LLC (“EIMC”), Tattersall Advisory Group, Inc., First International Advisors, LLC, Metropolitan West Capital Management, LLC, Evergreen Investment Services, Inc. and Evergreen Service Company, LLC, are subsidiaries of Wells Fargo.

After the merger, new interim advisory agreements between the Evergreen Funds and EIMC went into effect, as did new interim sub-advisory agreements with each sub-advisor to the Evergreen Funds. These interim agreements will be in effect until no later than March 19, 2009. Shareholders of the Evergreen Funds will meet on or around February 12, 2009 to consider definitive advisory and sub-advisory agreements for the Evergreen Funds, which would replace the interim agreements.

- Effective January 1, 2009, W. Douglas Munn became President and Chief Executive Officer of the Evergreen Funds.

FUND AT A GLANCE

as of December 31, 2008

MANAGEMENT TEAM

Investment Advisor:

Evergreen Investment Management Company, LLC

Portfolio Manager:

James M. Tringas, CFA

PERFORMANCE AND RETURNS

Portfolio inception date: 5/1/1998

Class inception date	Class 1 5/1/1998	Class 2 7/31/2002
Average annual return		
1-year	-31.31%	-31.48%
5-year	0.58%	0.33%
10-year	6.41%	6.25%

Past performance is no guarantee of future results. The performance quoted represents past performance and current performance may be lower or higher. The investment return and principal value of an investment will fluctuate so that investors' shares, when redeemed, may be worth more or less than their original cost. To obtain performance information current to the most recent month-end, please call 1.800.321.9332. The performance of each class may vary based on differences in fees and expenses paid by the shareholders investing in each class. Performance includes the reinvestment of income dividends and capital gain distributions, but does not reflect contract, policy, or separate account charges assessed by participating insurance companies.

Historical performance shown for Class 2 prior to its inception is based on the performance of Class 1, the original class offered. The historical returns for Class 2 have not been adjusted to reflect the effect of the class' 12b-1 fee. The fund incurs a 12b-1 fee of 0.25% for Class 2. Class 1 does not pay a 12b-1 fee. If the fee had been reflected, returns for Class 2 would have been lower.

The advisor is waiving a portion of its advisory fee. Had the fee not been waived, returns would have been lower.

LONG-TERM GROWTH

Comparison of a \$10,000 investment in the Evergreen VA Special Values Fund Class 1 shares versus a similar investment in the Russell 2000 Value Index (Russell 2000 Value) and the Consumer Price Index (CPI).

The **Russell 2000 Value** is an unmanaged market index and does not include transaction costs associated with buying and selling securities, any mutual fund fees or expenses or any taxes. The **CPI** is a commonly used measure of inflation and does not represent an investment return. It is not possible to invest directly in an index.

The fund's investment objective may be changed without a vote of the fund's shareholders.

Small and mid cap securities may be subject to special risks associated with narrower product lines and limited financial resources compared to their large cap counterparts, and, as a result, small and mid cap securities may decline significantly in market downturns and may be more volatile than those of larger companies due to the higher risk of failure.

Value-based investments are subject to the risk that the broad market may not recognize their intrinsic value.

All data is as of December 31, 2008, and subject to change.

PORTFOLIO MANAGER COMMENTARY

The fund's Class 1 shares returned -31.31% for the twelve-month period ended December 31, 2008. During the same period, the Russell 2000 Value returned -28.92%.

The fund's objective is to seek capital growth in the value of its shares.

Investment process

The financial markets were volatile during the first quarter of 2008, as investors contended with weaker economic activity and the ongoing credit crisis. Small cap value stocks outperformed large and mid cap value, while value stocks, overall, outperformed their growth counterparts in the Russell indexes. In the second quarter, surging commodity prices and ailing financial firms continued to fuel broad concerns about the economy and corporate profits. Stocks were weak across the board for the third quarter, led lower by signs of global economic weakness, disappointing corporate profits and uncertainty surrounding the housing and credit crisis. Volatility continued to dominate trading patterns in the final months of 2008. Weak economic data, falling profit forecasts, and uncertainty about the auto industry compounded worries about the credit crisis.

Contributors to performance

Independent oil and gas exploration and production companies were the largest contributors to performance in the first quarter, as commodity prices continued to soar. Stock selection in the Financials sector helped performance in the second quarter, with Hilb Rogal & Hobbs, an operator of insurance agencies, being a major contributor. First Citizens Bancshares was the top contributor for the fund in the third quarter. The Raleigh-based financial holding company has remained profitable at a time when many other national banks have been experiencing heavy losses. American Italian Pasta, the largest U.S. producer of dry pasta, was the top contributor for the fund in the fourth quarter; benefiting from the resurgence of pasta as a low cost food item. In addition, new management has cut expenses, reduced debt, and re-listed on the NASDAQ.

Detractors from performance

Stock selection in the Financials and Consumer Staples sectors held back results in the first quarter—in Financials, share price performance of Hilb Rogal & Hobbs had been disappointing during the quarter, but we believed the company had an excellent business model and the potential for much higher earnings power than was being generated at the time. We continued to hold the stock, and it became a contributor to performance in the second quarter when the company agreed to be acquired by Willis Group. Stock selection in the Information Technology and Materials sectors held back performance in the second quarter, while a pullback in crude oil and natural gas prices led to third-quarter underperformance in the Energy space. Specific names included Forest's Oil, which reported that Hurricane Ike negatively affected third-quarter production. Pre-storm, Forest reported that its volumes were in line with expectations for the year. However, shutdowns from Hurricanes Gustav and Ike reduced third-quarter production and caused the company to lower its earnings guidance. Whiting Petroleum also reported negative

repercussions from Hurricane Ike, including third-party shutdowns and evacuations for both pipeline and onshore facilities. Zale, a leading specialty retailer of jewelry, was a detractor from performance. In the fourth quarter, the company suffered from a decline in comparable same store sales as it took markdowns to remain competitive. Under new management, the company made significant strides in 2008 in improving its position over the long-term by permanently reducing inventory levels to create a more simplified and current overall assortment. However, the dramatic slowdown in retail has overshadowed positive steps by management and has put Zale into a higher risk category. We continue to own the stock, but will not add to the position until we gain confidence that the sales performance has stabilized with improvement on the horizon. We remain cautious on the sector and continue to focus on well-capitalized companies with the ability to drive improvements in products and efficiency and manage through this downturn. Genesco remains our largest holding in the sector.

This commentary reflects the views and opinions of the fund's portfolio manager(s) on the date indicated and may include statements that constitute "forward-looking statements" under the U.S. Securities laws. Forward-looking statements include, among other things, projections, estimates, and information about possible or future results related to the fund, markets, or regulatory developments. The views expressed above are not guarantees of future performance or economic results and involve certain risks, uncertainties, and assumptions that could cause actual outcomes and results to differ materially from the views expressed herein. Any discussions of specific securities should not be considered a recommendation to buy or sell those securities. The views expressed herein (including any forward-looking statements) may not be relied upon as investment advice or as an indication of the fund's trading intent.

You should carefully consider the fund's investment objectives, policies, risks, charges and expenses before investing. To obtain a prospectus, which contains this and other important information visit www.EvergreenInvestments.com or call 1.800.847.5397. Please read the prospectus carefully before investing.

ABOUT YOUR FUND'S EXPENSES

The Example below is intended to describe the fees and expenses borne by shareholders and the impact of those costs on your investment.

Example

As a shareholder of the fund, you incur two types of costs: (1) transaction costs, including sales charges (loads), redemption fees and exchange fees; and (2) ongoing costs, including management fees, distribution (12b-1) fees and other fund expenses. This Example is intended to help you understand your ongoing costs (in dollars) of investing in the fund and to compare these costs with the ongoing costs of investing in other mutual funds. The Example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period from July 1, 2008 to December 31, 2008.

The example illustrates your fund's costs in two ways:

• Actual expenses

The section in the table under the heading "Actual" provides information about actual account values and actual expenses. You may use the information in these columns, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the appropriate column for your share class, in the column entitled "Expenses Paid During Period" to estimate the expenses you paid on your account during this period.

• Hypothetical example for comparison purposes

The section in the table under the heading "Hypothetical (5% return before expenses)" provides information about hypothetical account values and hypothetical expenses based on the fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as sales charges (loads), redemption fees, exchange fees or separate account charges assessed by participating insurance companies. Therefore, the section in the table under the heading "Hypothetical (5% return before expenses)" is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

	Beginning Account Value 7/1/2008	Ending Account Value 12/31/2008	Expenses Paid During Period*
Actual			
Class 1	\$1,000.00	\$ 738.05	\$ 4.37
Class 2	\$1,000.00	\$ 737.00	\$ 5.46
Hypothetical (5% return before expenses)			
Class 1	\$1,000.00	\$1,020.11	\$ 5.08
Class 2	\$1,000.00	\$1,018.85	\$ 6.34

* For each class of the fund, expenses are equal to the annualized expense ratio of each class (1.00% for Class 1 and 1.25% for Class 2), multiplied by the average account value over the period, multiplied by 184 / 366 days.

See Notes to Financial Statements

NOTES TO FINANCIAL STATEMENTS

1. ORGANIZATION

Evergreen VA Special Values Fund (the “Fund”) is a diversified series of Evergreen Variable Annuity Trust (the “Trust”), a Delaware statutory trust organized on December 23, 1997. The Trust is an open-end management investment company registered under the Investment Company Act of 1940, as amended (the “1940 Act”). Shares of the Fund may only be purchased by insurance companies for the purpose of funding variable annuity contracts or variable life insurance policies.

The Fund offers Class 1 and Class 2 shares at net asset value without a front-end sales charge or contingent deferred sales charge. Class 2 shares pay an ongoing distribution fee.

2. SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements. The policies are in conformity with generally accepted accounting principles in the United States of America, which require management to make estimates and assumptions that affect amounts reported herein. Actual results could differ from these estimates.

a. Valuation of investments

Listed equity securities are usually valued at the last sales price or official closing price on the national securities exchange where the securities are principally traded.

Short-term securities with remaining maturities of 60 days or less at the time of purchase are valued at amortized cost, which approximates market value.

Investments in open-end mutual funds are valued at net asset value. Securities for which market quotations are not readily available or not reflective of current market value are valued at fair value as determined by the investment advisor in good faith, according to procedures approved by the Board of Trustees.

b. Repurchase agreements

Securities pledged as collateral for repurchase agreements are held by the custodian bank or in a segregated account in the Fund’s name until the agreements mature. Collateral for certain tri-party repurchase agreements is held at the counterparty’s custodian in a segregated account for the benefit of the Fund and the counterparty. Each agreement requires that the market value of the collateral be sufficient to cover payments of interest and principal. However, in the event of default or bankruptcy by the other party to the agreement, retention of the collateral may be subject to legal proceedings. The Fund will only enter into repurchase agreements with banks and other financial institutions, which are deemed by the investment advisor to be creditworthy pursuant to guidelines established by the Board of Trustees. In certain instances, the Fund’s securities lending agent may provide collateral in the form of repurchase agreements.

c. Securities lending

The Fund may lend its securities to certain qualified brokers in order to earn additional income. The Fund receives compensation in the form of fees or interest earned on the investment of any cash collateral received. The Fund also continues to receive interest and dividends on the securities loaned. The Fund receives collateral in the form of cash or securities with a market value at least equal to the market value of the securities on loan. In the event of default or bankruptcy by the borrower, the Fund could experience delays and costs in recovering the loaned securities or in gaining access to the collateral. The Fund has the right under the lending agreement to recover the securities from the borrower on demand.

d. Security transactions and investment income

Security transactions are recorded on trade date. Realized gains and losses are computed using the specific cost of the security sold. Dividend income is recorded on the ex-dividend date.

e. Federal and other taxes

The Fund intends to continue to qualify as a regulated investment company and distribute all of its taxable income, including any net capital gains (which have already been offset by available capital loss carryovers). Accordingly, no provision for federal taxes is required. The Fund has adopted the provisions of FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* ("FIN 48") which prescribes a minimum threshold for financial statement recognition of the benefit of a tax position taken or expected to be taken in a tax return. The Fund's financial statements have not been impacted by the adoption of FIN 48. The Fund's income and excise tax returns and all financial records supporting those returns for the prior three fiscal years are subject to examination by the federal, Massachusetts and Delaware revenue authorities.

f. Distributions

Distributions to shareholders from net investment income and net realized gains, if any, are recorded on the ex-dividend date. Such distributions are determined in conformity with income tax regulations, which may differ from generally accepted accounting principles.

g. Class allocations

Income, common expenses and realized and unrealized gains and losses are allocated to the classes based on the relative net assets of each class. Distribution fees, if any, are calculated daily at the class level based on the appropriate net assets of each class and the specific expense rates applicable to each class.

3. ADVISORY FEE AND OTHER TRANSACTIONS WITH AFFILIATES

Evergreen Investment Management Company, LLC ("EIMC"), an indirect, wholly-owned subsidiary of Wells Fargo & Company ("Wells Fargo"), is the investment advisor to the Fund and is paid an annual fee starting at 0.80% and declining to 0.75% as the aggregate average daily net assets of the Fund and its retail counterpart, Evergreen Special

Values Fund, increase. For the year ended December 31, 2008, the advisory fee was equivalent to an annual rate of 0.79% of the Fund's average daily net assets.

On October 3, 2008, Wells Fargo and Wachovia Corporation ("Wachovia") announced that Wells Fargo agreed to acquire Wachovia in a whole company transaction that will include all of Wachovia's banking and other businesses. In connection with this transaction, Wachovia issued preferred shares to Wells Fargo representing approximately a 40% voting interest in Wachovia. Due to its ownership of preferred shares, Wells Fargo may be deemed to control EIMC. If Wells Fargo is deemed to control EIMC, then the existing advisory agreement between the Fund and EIMC would have terminated automatically in connection with the issuance of preferred shares. To address this possibility, on October 20, 2008 the Board of Trustees approved an interim advisory agreement with EIMC with the same terms and conditions as the existing agreement which became effective upon the issuance of the preferred shares. EIMC's receipt of the advisory fees under the interim advisory agreement is subject to the approval by shareholders of the Fund of a new advisory agreement with EIMC.

On December 31, 2008, Wachovia merged with and into Wells Fargo and as a result of the merger, EIMC, Evergreen Investment Services, Inc. ("EIS") and Evergreen Service Company, LLC ("ESC") became subsidiaries of Wells Fargo. After the merger, a new interim advisory agreement with the same terms and conditions between the Fund and EIMC went into effect.

From time to time, EIMC may voluntarily or contractually waive its fee and/or reimburse expenses in order to limit operating expenses. During the year ended December 31, 2008, EIMC voluntarily waived its advisory fee in the amount of \$9,077.

The Fund may invest in money market funds which are advised by EIMC. Income earned on these investments is included in income from affiliate on the Statement of Operations.

EIMC also serves as the administrator to the Fund providing the Fund with facilities, equipment and personnel. EIMC is paid an annual rate determined by applying percentage rates to the aggregate average daily net assets of the Evergreen funds (excluding money market funds) starting at 0.10% and declining to 0.05% as the aggregate average daily net assets of the Evergreen funds (excluding money market funds) increase. For the year ended December 31, 2008, the administrative services fee was equivalent to an annual rate of 0.10% of the Fund's average daily net assets.

ESC, an indirect, wholly-owned subsidiary of Wells Fargo, is the transfer and dividend disbursing agent for the Fund. ESC receives account fees that vary based on the type of account held by the shareholders in the Fund.

Wachovia Bank NA, through its securities lending division of Wachovia Global Securities Lending, acts as the securities lending agent for the Fund (see Note 5).

NOTES TO FINANCIAL STATEMENTS continued

The Fund has placed a portion of its portfolio transactions with brokerage firms that are affiliates of Wells Fargo. During the year ended December 31, 2008, the Fund paid brokerage commissions of \$11,203 to Wachovia Securities, LLC.

4. DISTRIBUTION PLAN

“EIS”, an indirect wholly-owned subsidiary of Wells Fargo, serves as distributor of the Fund’s shares. The Fund has adopted a Distribution Plan, as allowed by Rule 12b-1 of the 1940 Act, for Class 2 shares. Under the Distribution Plan, distribution fees are paid at an annual rate of 0.25% of the average daily net assets for Class 2 shares.

5. INVESTMENT TRANSACTIONS

Cost of purchases and proceeds from sales of investment securities (excluding short-term securities) were \$46,330,395 and \$58,027,048, respectively, for the year ended December 31, 2008.

On January 1, 2008, the Fund implemented Statement of Financial Accounting Standards No. 157, *Fair Value Measurements* (“FAS 157”). FAS 157 establishes a single authoritative definition of fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. FAS 157 establishes a fair value hierarchy based upon the various inputs used in determining the value of the Fund’s investments. These inputs are summarized into three broad levels as follows:

- Level 1 – quoted prices in active markets for identical securities
- Level 2 – other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)
- Level 3 – significant unobservable inputs (including the Fund’s own assumptions in determining the fair value of investments)

The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

As of December 31, 2008, the inputs used in valuing the Fund’s assets, which are carried at fair value, were as follows:

Valuation Inputs	Investments in Securities
Level 1 – Quoted Prices	\$64,071,908
Level 2 – Other Significant Observable Inputs	0
Level 3 – Significant Unobservable Inputs	0
Total	\$64,071,908

During the year ended December 31, 2008, the Fund loaned securities to certain brokers and earned \$146,234, net of \$15,024 paid to Wachovia Global Securities Lending as the securities lending agent. At December 31, 2008, the value of securities on loan and the

NOTES TO FINANCIAL STATEMENTS continued

total value of collateral received for securities loaned amounted to \$1,628,830 and \$1,664,746, respectively.

On December 31, 2008, the aggregate cost of securities for federal income tax purposes was \$94,096,697. The gross unrealized appreciation and depreciation on securities based on tax cost was \$2,597,304 and \$32,622,093, respectively, with a net unrealized depreciation of \$30,024,789.

As of December 31, 2008, the Fund had \$2,111,212 in capital loss carryovers for federal income tax purposes expiring in 2016.

For income tax purposes, capital losses incurred after October 31 within the Fund's fiscal year are deemed to arise on the first business day of the following fiscal year. As of December 31, 2008 the Fund incurred and will elect to defer post-October losses of \$3,590,712.

6. INTERFUND LENDING

Pursuant to an Exemptive Order issued by the SEC, the Fund may participate in an inter-fund lending program with certain funds in the Evergreen fund family. This program allows the Fund to borrow from other participating funds. During the year ended December 31, 2008, the Fund did not participate in the interfund lending program.

7. DISTRIBUTIONS TO SHAREHOLDERS

As of December 31, 2008, the components of distributable earnings on a tax basis were as follows:

Undistributed Ordinary Income	Unrealized Depreciation	Capital Loss Carryovers and Post-October Losses	Temporary Book/Tax Differences
\$22,319	\$30,024,789	\$5,701,924	\$(1,516)

The differences between the components of distributable earnings on a tax basis and the amounts reflected in the Statement of Assets and Liabilities are primarily due to wash sales and partnership investments. The temporary book/tax differences are a result of timing differences between book and tax recognition of income and/or expenses.

The tax character of distributions paid was as follows:

	Year Ended December 31,	
	2008	2007
Ordinary Income	\$976,436	\$ 4,685,682
Long-term Capital Gain	0	14,208,759

8. EXPENSE REDUCTIONS

Through expense offset arrangements with ESC and the Fund's custodian, a portion of fund expenses has been reduced.

9. DEFERRED TRUSTEES' FEES

Each Trustee of the Fund may defer any or all compensation related to performance of his or her duties as a Trustee. The Trustees' deferred balances are allocated to deferral accounts, which are included in the accrued expenses for the Fund. The investment performance of the deferral accounts is based on the investment performance of certain Evergreen funds. Any gains earned or losses incurred in the deferral accounts are reported in the Fund's Trustees' fees and expenses. At the election of the Trustees, the deferral account will be paid either in one lump sum or in quarterly installments for up to ten years.

10. FINANCING AGREEMENT

The Fund and certain other Evergreen funds share in a \$100 million unsecured revolving credit commitment for temporary and emergency purposes, including the funding of redemptions, as permitted by each participating fund's borrowing restrictions. Borrowings under this facility bear interest at 0.50% per annum above the Federal Funds rate. All of the participating funds are charged an annual commitment fee of 0.09% on the unused balance, which is allocated pro rata. Prior to June 27, 2008, the annual commitment fee was 0.08%. During the year ended December 31, 2008, the Fund had no borrowings.

11. REGULATORY MATTERS AND LEGAL PROCEEDINGS

The Evergreen funds, EIMC and certain of EIMC's affiliates are involved in various legal actions, including private litigation and class action lawsuits, and are and may in the future be subject to regulatory inquiries and investigations.

The SEC and the Secretary of the Commonwealth, Securities Division, of the Commonwealth of Massachusetts are conducting separate investigations of EIMC, EIS and Evergreen Ultra Short Opportunities Fund (the "Ultra Short Fund") concerning alleged issues surrounding the drop in net asset value of the Ultra Short Fund in May and June 2008. In addition, three purported class actions have been filed in the U.S. District Court for the District of Massachusetts relating to the same events; defendants include various Evergreen entities, including EIMC and EIS, and Evergreen Fixed Income Trust and its Trustees. The cases generally allege that investors in the Ultra Short Fund suffered losses as a result of (i) misleading statements in Ultra Short Fund's registration statement and prospectus, (ii) the failure to accurately price securities in the Ultra Short Fund at different points in time and (iii) the failure of the Ultra Short Fund's risk disclosures and description of its investment strategy to inform investors adequately of the actual risks of the fund.

12. NEW ACCOUNTING PRONOUNCEMENTS

In March 2008, FASB issued Statement of Financial Accounting Standards No. 161, *Disclosures about Derivative Instruments and Hedging Activities* ("FAS 161"), an amendment of FASB Statement No. 133. FAS 161 requires enhanced disclosures about (a) how

and why a fund uses derivative instruments, (b) how derivative instruments and hedging activities are accounted for, and (c) how derivative instruments and related hedging activities affect a fund's financial position, financial performance, and cash flows. Management of the Fund does not believe the adoption of FAS 161 will materially impact the financial statement amounts, but will require additional disclosures. This will include qualitative and quantitative disclosures on derivative positions existing at period end and the effect of using derivatives during the reporting period. FAS 161 is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008.

In September 2008, FASB issued FASB Staff Position No. FAS 133-1 and FIN 45-4, *Disclosures about Credit Derivatives and Certain Guarantees: An Amendment of FASB Statement No. 133 and FASB Interpretation No. 45; and Clarification of the Effective Date of FASB Statement No. 161*. This FASB Staff Position (1) amends FASB Statement No. 133 to require disclosures by sellers of credit derivatives, including credit derivatives embedded in a hybrid instrument (2) amends FASB Interpretation No. 45 to require additional disclosure about the current status of the payment/performance risk of a guarantee and (3) clarifies the effective date of FAS 161. This FASB Staff Position is effective for reporting periods (annual or interim) ending after November 15, 2008. The adoption of this FASB Staff Position did not require additional disclosures to the Fund's financial statements.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Board of Trustees and Shareholders
Evergreen Variable Annuity Trust

We have audited the accompanying statement of assets and liabilities, including the schedule of investments, of the Evergreen VA Special Values Fund, a series of the Evergreen Variable Annuity Trust, as of December 31, 2008 and the related statement of operations for the year then ended, statements of changes in net assets for each of the years in the two-year period then ended and the financial highlights for each of the years in the five-year period then ended. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of December 31, 2008 by correspondence with the custodian and brokers, or by other appropriate auditing procedures where replies from brokers were not received. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of the Evergreen VA Special Values Fund as of December 31, 2008, the results of its operations, changes in its net assets and financial highlights for each of the years described above, in conformity with U.S. generally accepted accounting principles.

FEDERAL TAX DISTRIBUTIONS

For corporate shareholders, 96.71% of ordinary income dividends paid during the fiscal year ended December 31, 2008 qualified for the dividends received deduction.

INFORMATION ABOUT THE REVIEW AND APPROVAL OF THE FUND'S INVESTMENT ADVISORY AGREEMENT

Each year, the Fund's Board of Trustees determines whether to approve the continuation of the Fund's investment advisory agreements. In September 2008, the Trustees, including a majority of the Trustees who are not "interested persons" (as that term is defined in the 1940 Act) of the Fund or EIMC (the "independent Trustees"), approved the continuation of the Fund's investment advisory agreements. (References below to the "Fund" are to VA Special Values Fund; references to the "funds" are to the Evergreen funds generally.)

At the same time, the Trustees considered the continuation of the investment advisory agreements for all of the funds. The description below refers in many cases to the Trustees' process for considering, and conclusions regarding, all of the funds' agreements. In all of its deliberations, the Board of Trustees and the independent Trustees were advised by independent counsel to the independent Trustees and counsel to the funds.

The review process. In connection with its review of the funds' investment advisory agreements, the Board of Trustees requests and evaluates, and EIMC and any sub-advisors furnish, such information as the Trustees consider to be reasonably necessary in the circumstances. The Trustees began their 2008 review process at the time of the last advisory contract-renewal process in September 2007. In the course of their 2007 review, the Trustees identified a number of funds that had experienced either short-term or longer-term performance issues. During the 2008 review process, the Trustees monitored each of these funds in particular for changes in performance and for the results of any changes in a fund's investment process or investment team. In addition, during the course of the year, the Trustees regularly reviewed information regarding the investment performance of all of the funds, paying particular attention to funds whose performance since September 2007 indicated short-term or longer-term performance issues.

In spring 2008, a committee of the Board of Trustees (the "Committee"), working with EIMC management, determined generally the types of information the Board would review as part of its 2008 review process and set a timeline detailing the information required and the dates for its delivery to the Trustees. The Board engaged the independent data provider Keil Fiduciary Strategies LLC ("Keil") to provide fund-specific and industry-wide data containing information of a nature and in a format generally prescribed by the Committee, and the Committee worked with Keil and EIMC to develop appropriate groups of peer funds for each fund. The Committee also identified a number of expense, performance, and other issues and requested specific information as to those issues.

The Trustees reviewed, with the assistance of an independent industry consultant retained by the independent Trustees, the information that EIMC and Keil provided. The Trustees

formed small groups to review individual funds in greater detail. In addition, the Trustees considered information regarding, among other things, brokerage practices of the funds, the use of derivatives by the funds, strategic planning for the funds, analyst and research support available to the portfolio management teams, and information regarding the various fall-out benefits received directly and indirectly by EIMC and its affiliates from the funds. The Trustees requested and received additional information following that review.

The Committee met several times by telephone during the 2008 review process to consider the information provided by EIMC. The Committee then met with representatives of EIMC. In addition, over the period of this review, the independent Trustees discussed the continuation of the funds' advisory agreements with representatives of EIMC and in multiple private sessions with independent legal counsel at which no personnel of EIMC were present. At a meeting of the full Board of Trustees in September, the Committee reported the results of its discussions with EIMC, and the full Board met with representatives of EIMC and engaged in further review of the materials provided to it, and approved the continuation of each of the advisory and sub-advisory agreements.

In considering the continuation of the agreements, the Trustees did not identify any particular information or consideration that was all-important or controlling, and each Trustee attributed different weights to various factors. The Trustees evaluated information provided to them both in terms of the funds generally and with respect to each fund, including the Fund, specifically as they considered appropriate. Although the Trustees considered the continuation of the agreements as part of the larger process of considering the continuation of the advisory contracts for all of the funds, their determination to continue the advisory agreements for each of the funds was ultimately made on a fund-by-fund basis.

This summary describes a number of the most important, but not necessarily all, of the factors considered by the Board and the independent Trustees.

Information reviewed. The Board of Trustees and committees of the Board of Trustees meet periodically during the course of the year. At those meetings, EIMC presents a wide variety of information regarding the services it performs, the investment performance of the funds, and other aspects of the business and operations of the funds. At those meetings, and in the process of considering the continuation of the agreements, the Trustees considered information regarding, for example, the funds' investment results; the portfolio management teams for the funds and the experience of the members of those teams, and any recent changes in the membership of the teams; portfolio trading practices; compliance by the funds and EIMC with applicable laws and regulations and with the funds' and EIMC's compliance policies and procedures; risk evaluation and oversight procedures at EIMC; services provided by affiliates of EIMC to the funds and share-

holders of the funds; and other information relating to the nature, extent, and quality of services provided by EIMC. The Trustees considered a number of changes in portfolio management personnel at EIMC and its advisory affiliates in the year since September 2007. The Trustees also considered changes in personnel at the funds and EIMC, including the appointment of a new Chief Compliance Officer for the funds in June of 2007 and a new Chief Investment Officer at EIMC in August of 2008.

The Trustees considered the rates at which the funds pay investment advisory fees, and the efforts generally by EIMC and its affiliates as sponsors of the funds. The data provided by Keil showed the management fees paid by each fund in comparison to the management fees of other peer mutual funds, in addition to data regarding the investment performance of the funds in comparison to other peer mutual funds. The Trustees were assisted by an independent industry consultant in reviewing the information presented to them.

The Trustees noted that, in certain cases, EIMC and/or its affiliates provide advisory services to other clients that are comparable to the advisory services they provide to certain funds. The Trustees considered the information EIMC provided regarding the rates at which those other clients pay advisory fees to EIMC or its affiliates for such services. Fees charged to those other clients were generally lower than those charged to the respective funds. In respect of these other accounts, EIMC noted that the compliance, reporting, and other legal burdens of providing investment advice to mutual funds generally exceed those required to provide advisory services to non-mutual fund clients such as retirement or pension plans. The Trustees also considered the investment performance of those other accounts managed by EIMC and its affiliates, where applicable, and concluded that the performance of those accounts did not suggest any substantial difference in the quality of the service provided by EIMC and its affiliates to those accounts.

The Trustees considered the transfer agency fees paid by the funds to an affiliate of EIMC. They reviewed information presented to them showing that the transfer agency fees charged to the funds were generally consistent with industry norms.

The Trustees also considered that EIMC serves as administrator to the funds and receives a fee for its services as administrator. In their comparison of the advisory fee paid by the funds with those paid by other mutual funds, the Trustees considered administrative fees paid by the funds and those other mutual funds. The Board considered that EIS, an affiliate of EIMC, serves as distributor to the funds generally and receives fees from the funds for those services. They considered other so-called “fall-out” benefits to EIMC and its affiliates due to their other relationships with the funds, including, for example, soft-dollar services received by EIMC attributable to transactions entered into by EIMC for the benefit of the funds and brokerage commissions received by Wachovia Securities, LLC, an affiliate of EIMC, from transactions effected by it for the funds. The Trustees also noted that the funds pay sub-transfer agency fees to various financial institutions, including

Wachovia Securities, LLC and its affiliates, that hold fund shares in omnibus accounts, and that an affiliate of EIMC receives fees for administering the sub-transfer agency payment program. In reviewing the services provided by an affiliate of EIMC, the Trustees noted that an affiliate of EIMC had won recognition from Dalbar customer service each year since 1998, and also won recognition from National Quality Review for customer service and for accuracy in processing transactions in 2008. They also considered that Wachovia Securities, LLC and its affiliates receive distribution-related fees and shareholder servicing payments (including amounts derived from payments under the funds' Rule 12b-1 plans) in respect of shares sold or held through it. The Trustees also noted that an affiliate of EIMC receives compensation for serving as a securities lending agent for a number of the funds.

In the period leading up to the Trustees' approval of continuation of the investment advisory agreements, the Trustees were mindful of the financial condition of Wachovia Corporation ("Wachovia"), EIMC's parent company. They considered the possibility that a significant adverse change in Wachovia's financial condition could impair the ability of EIMC or its affiliates to perform services for the funds at the same level as in the past. The Trustees concluded that any change in Wachovia's financial condition had not to date had any such effect, but determined to monitor EIMC's and its affiliates' performance, and financial conditions generally, going forward in order to identify any such impairment that may develop and to take appropriate action.

Nature and quality of the services provided. The Trustees considered that EIMC and its affiliates generally provide a comprehensive investment management service to the funds. They noted that EIMC formulates and implements an investment program for the Fund. They noted that EIMC makes its personnel available to serve as officers of the funds, and concluded that the reporting and management functions provided by EIMC with respect to the funds were generally satisfactory. The Trustees considered the investment philosophy of the Fund's portfolio management team, and considered the in-house research capabilities of EIMC and its affiliates, as well as other resources available to EIMC, including research services available to it from third parties. The Board considered the managerial and financial resources available to EIMC and its affiliates, and the commitment that the Wachovia organization has made to the funds generally. On the basis of these factors, they determined that the nature and scope of the services provided by EIMC were consistent with their respective duties under the investment advisory agreements and appropriate and consistent with the investment programs and best interests of the funds.

The Trustees noted the resources EIMC and its affiliates have committed to the regulatory, compliance, accounting, tax and oversight of tax reporting, and shareholder servicing functions, and the number and quality of staff committed to those functions, which they

concluded were appropriate and generally in line with EIMC's responsibilities to the Fund and to the funds generally. The Board and the disinterested Trustees concluded, within the context of their overall conclusions regarding the funds' advisory agreements, that they were generally satisfied with the nature, extent, and quality of the services provided by EIMC, including services provided by EIMC under its administrative services agreements with the funds.

Investment performance. The Trustees considered the investment performance of each fund, both by comparison to other comparable mutual funds and to broad market indices. Although the Trustees considered the performance of all share classes, the Trustees noted that, for the one-year period ended December 31, 2007, the Fund's Class 1 shares had outperformed the Fund's benchmark index, the Russell 2000 Value Index, and had performed in the fourth quintile of the mutual funds against which the Trustees compared the Fund's performance. The Trustees noted that, for the five-year period ended December 31, 2007, the Fund's Class 1 shares had underperformed the Fund's benchmark index and performed in the fourth quintile of the mutual funds against which the Trustees compared the Fund's performance. The Trustees also noted that, for the three-year period ended December 31, 2007, the Fund's Class 1 shares had outperformed the Fund's benchmark index and a majority of the mutual funds against which the Trustees compared the Fund's performance. The Trustees noted that the Fund's absolute returns since the Fund's inception were favorable and exceeded the returns of its benchmark index over the same period.

The Trustees discussed each fund's performance with representatives of EIMC. In each instance where a fund experienced a substantial period of underperformance relative to its benchmark index and/or the non-Evergreen fund peers against which the Trustees compared the fund's performance, the Trustees considered EIMC's explanation of the reasons for the relative underperformance and the steps being taken to address the relative underperformance. The Trustees also noted that EIMC had appointed a new Chief Investment Officer in August of 2008 who had not yet had sufficient time to evaluate and direct remedial efforts with respect to funds that have experienced a substantial period of relative underperformance. The Trustees emphasized that the continuation of the investment advisory agreement for a fund should not be taken as any indication that the Trustees did not believe investment performance for any specific fund might not be improved, and they noted that they would continue to monitor closely the investment performance of the funds going forward.

Advisory and administrative fees. The Trustees recognized that EIMC does not seek to provide the lowest cost investment advisory service, but to provide a high quality, full-service investment management product at a reasonable price. They also noted that EIMC has in many cases sought to set its investment advisory fees at levels consistent with

industry norms. The Trustees noted that, in certain cases, a fund's management fees were higher than many or most other mutual funds in the same Keil peer group. However, in each case, the Trustees determined on the basis of the information presented that the level of management fees was not excessive. The Trustees noted that the management fee paid by the Fund was higher than the management fees paid by a majority of the mutual funds against which the Trustees compared the Fund's management fee, and near the median of that group. The Trustees also noted that the level of profitability realized by EIMC in respect of the fee did not appear excessive.

Economies of scale. The Trustees noted the possibility that economies of scale would be achieved by EIMC in managing the funds as the funds grow. The Trustees noted that the Fund had implemented breakpoints in its advisory fee structure. The Trustees noted that they would continue to review the appropriate levels of breakpoints in the future, and concluded that the breakpoints as implemented appeared to be a reasonable step toward the realization of economies of scale by the Fund.

Profitability. The Trustees considered information provided to them regarding the profitability to the EIMC organization of the investment advisory, administration, and transfer agency (with respect to the open-end funds only) fees paid to EIMC and its affiliates by each of the funds. They considered that the information provided to them was necessarily estimated, and that the profitability information provided to them, especially on a fund-by-fund basis, did not necessarily provide a definitive tool for evaluating the appropriateness of each fund's advisory fee. They noted that the levels of profitability of the funds to EIMC varied widely, depending on among other things the size and type of fund. They considered the profitability of the funds in light of such factors as, for example, the information they had received regarding the relation of the fees paid by the funds to those paid by other mutual funds, the investment performance of the funds, and the amount of revenues involved. In light of these factors, the Trustees concluded that the profitability of any of the funds, individually or in the aggregate, should not prevent the Trustees from approving the continuation of the agreements.

Matters Relating to Approval of Interim Advisory and Sub-Advisory Agreements.

Following the Trustees' approval of the continuation of the funds' investment advisory agreements, Wells Fargo & Company ("Wells Fargo") announced that it had agreed to acquire Wachovia in a whole company transaction that would include all of Wachovia's banking and other businesses, including EIMC. In connection with this transaction, on October 20, 2008, Wachovia issued preferred shares representing a 39.9% voting interest in Wachovia to Wells Fargo pursuant to a Share Exchange Agreement. Wells Fargo subsequently completed its acquisition of Wachovia on December 31, 2008.

Under the 1940 Act, both the issuance of the preferred shares to Wells Fargo and the completion of the acquisition could be viewed as resulting in the termination of the funds'

investment advisory and sub-advisory agreements. Accordingly, on October 20, 2008, the Board of Trustees approved interim investment advisory and sub-advisory agreements that would become effective upon Wachovia's issuance of preferred shares to Wells Fargo. On November 12, 2008, the Trustees approved a second set of interim investment advisory and sub-advisory agreements that would become effective upon the completion of the acquisition. (The first set of interim agreements approved on October 20, 2008, together with the second set of interim agreements approved November 12, 2008, are referred to as "Interim Agreements.") In addition, the Trustees approved on November 12, 2008, and again at an in-person meeting on December 3 and 4, 2008, definitive investment advisory and sub-advisory agreements (the "New Agreements") and recommended that shareholders of the funds approve them at meetings to be held in early 2009.

In considering whether to approve the first set of Interim Agreements on October 20, 2008, the Trustees took into account that they had recently approved the annual continuation of all of the funds' existing investment advisory and sub-advisory agreements in September 2008. The Trustees reviewed the terms of the Interim Agreements, noting that the terms were generally identical to those of the funds' investment advisory agreements that were in effect before October 20, 2008 (but for provisions required by law to be included in the Interim Agreements). They also took into account current and anticipated market and economic conditions, the financial condition of EIMC and of Wachovia generally, and the likely effect of the merger on the financial condition of Wachovia. In general, the Trustees considered that the proposed merger of Wachovia with Wells Fargo would very likely improve substantially the financial condition of EIMC's parent company, increase the capital available to support the funds, and ensure that EIMC and its affiliates would have the resources to provide continuing services to the funds. In light principally of these considerations and their recent continuation of the funds' investment advisory arrangements in September, the Trustees unanimously approved the first set of Interim Agreements that became effective on October 20, 2008.

In addition to the foregoing, at their meetings on November 12, 2008 and December 3 and 4, 2008 when the Trustees considered whether to approve the second set of Interim Agreements as well as the New Agreements, the Trustees considered presentations made to them on November 12, 2008 by representatives of EIMC and Wells Fargo regarding the anticipated implications of the merger for EIMC and the funds. The Trustees also considered:

- Their understanding that the merger was not expected to result in any adverse effect on the funds, on the quality and level of services that EIMC would provide to the funds, or on the resources available to the funds and to EIMC, and that Wells Fargo is committed to continue providing the funds with high quality services;

ADDITIONAL INFORMATION (unaudited) continued

- Information about Wells Fargo's financial condition, reputation, and resources, and the likelihood that the merger would result in improved organizational stability for EIMC, benefiting the funds as well as offering the potential for the funds, over time, to access Wells Fargo's infrastructure, resources and capabilities;
- That EIMC and Wells Fargo representatives have stated that there is no present intention to change the funds' existing advisory fees or expense limitations;
- That the representatives of Wells Fargo have expressed their intention to pursue the integration of EIMC and the funds with corresponding Wells Fargo businesses and funds only after a deliberative process designed to identify and retain the relative strengths of both organizations;
- That the Wells Fargo representatives expect that the deliberative process and any subsequent integration will take more than a year;
- That, in the meantime, Wells Fargo expects to retain, largely in its current form, the existing EIMC management team and investment advisory and other key professionals and to operate EIMC following the merger as a separate business unit under the Evergreen brand;
- That Wells Fargo and EIMC would consult with the Trustees before implementing any significant changes that would affect the funds or the services provided by EIMC or its affiliates to the funds;
- Wells Fargo's experience and approach with respect to acquisitions of other fund complexes;
- The fact that, if the New Agreements were not approved, on March 19, 2009, the Subsequent Interim Agreements will expire and the funds will no longer have a contractual right to investment advisory services from EIMC or any sub-advisors;
- That EIMC's management supports the merger; and
- That representatives of EIMC have committed that the funds will not bear the expenses relating to Wells Fargo's acquisition of Wachovia, including the costs of soliciting fund shareholders to approve the New Agreements.

Based on the foregoing, the Trustees, including all of the Trustees who are not "interested persons" of the funds or EIMC, unanimously approved the second set of Interim Agreements and the New Agreements.

Term of office since: 2007

¹ Each Trustee serves until a successor is duly elected or qualified or until his or her death, resignation, retirement or removal from office. Each Trustee oversaw 77 Evergreen funds as of December 31, 2008. Correspondence for each Trustee may be sent to Evergreen Board of Trustees, P.O. Box 20083, Charlotte, NC 28202.

² It is possible that Mr. Pettit may be viewed as an "interested person" of the Evergreen funds, as defined in the 1940 Act, because of his law firm's previous representation of affiliates of Wells Fargo & Company ("Wells Fargo"), the parent to the Evergreen funds' investment advisor, EIMC. The Trustees are treating Mr. Pettit as an interested trustee for the time being.

³ Mr. Wagoner is an "interested person" of the Evergreen funds because of his ownership of shares in Wells Fargo & Company, the parent to the Evergreen funds' investment advisor.

⁴ The address of the Officer is 200 Berkeley Street, Boston, MA 02116.

Additional information about the Fund's Board of Trustees and Officers can be found in the Statement of Additional Information (SAI) and is available upon request without charge by calling 800.343.2898.
